Portland Forensic Document Examiner Jacqueline Joseph Awarded Certification

February 2011, Portland, OR. Forensic handwriting and document examiner Jacqueline Joseph was awarded accredited certification by the Board of Forensic Document Examiners (BFDE: www.bfde.org).

There are only 16 professionals accredited by the BFDE in the United States and Ms. Joseph is the only document examiner in the Pacific Northwest to be so credentialed. By receiving this award, Ms. Joseph has been recognized by the BFDE for her knowledge and practical skills in handwriting and document forensics.

Ms. Joseph was required to apply for testing and, once accepted, she demonstrated knowledge in her forensic specialty by passing rigorous written and performance tests.

Ms. Joseph established her practice in 1992. She works with attorneys, business professionals, and individuals to determine the authenticity of handwriting, signatures, sports memorabilia and historic artifacts. Using special equipment when needed, she demonstrates evidence of alterations, deletions or additions to documents.

The BFDE is an FSAB accredited board. Overseeing and accrediting forensic certifications is The Forensic Specialties Accreditation Board (FSAB: www.thefsab.org). Formed in 2002, it evaluates the certification programs offered by boards that certify individual forensic scientists.
